In other words, it's not that **Skyline's** 5th week is a different price, it's that **your** 5th week has a different price. If you're not sure, please contact us. And with the sibling discount, it's that "both" or "all three" get the 15% discount, not just the second or third child.

** Week 8 has a higher price on account of being comprised of out-trips to other locations. The transport and entry fees are included in our price.*
